

Putsch®

Beet Knives

produce *your* cossette quality

For many years PUTSCH® is the biggest manufacturer of beet knives for the sugar industry in the world.

We produce beet knives

- in any design, division and length
- for every beet slicing system
- utilizing the latest manufacturing know-how and a special surface treatment.

We produce automatic and semi-automatic machines for reconditioning beet knives. Of course we also supply the corresponding fraisers made out of special steel alloys.

Putsch®

The cutting edge of Sugar Technology
